

3/9/2022

We have received an updated Standard Operating Procedure for the investigation of COVID-19 cases in schools. The only change is that masks are no longer a recommendation in Maine schools at this time. With the removal of required universal masking, students that are not fully vaccinated AND not enrolled in pool testing will be instructed to quarantine from school in the event they are identified as a close contact to a Covid-19 case. If you would like to enroll your student in the pool testing program, please contact the nurse at 246-2283 or by email at tlebeda@strattonschool.org. The updated operating procedure can be found on the Maine Department of Education website.
